## In Tribute to Jim Roberts

The First Coast Highlanders are saddened at the loss of Jim Roberts, long-time band member, mentor, friend, board member, and fun person to be around. Most recently, Jim played tenor drum with the band, always with a fine upright bearing and flair. Jim died on July 19, 2025. Art Tenney, Pipe Major, and Nikki Herbst, Pipe Sergeant, were honored to play at Jim's funeral, and the whole band was honored to play at his memorial the following day. Friends and family from far and wide shared stories and hugs and tears in memory of this kind, generous, loyal, strong individual.

The following is excerpted from the obituary for our friend, whom we miss a great deal:

"James Wylie Roberts passed away peacefully, surrounded by his beloved family. Jim lived a rich, vibrant life full of adventure, travel, service, music, and deep love for his family. A proud Texan and a true gentleman, Jim was preceded in death by his cherished wife, Priscilla Anne Roberts; his parents, James Barton and Rose Mary Roberts; his identical twin brother, Don Michael Roberts; and his grandson, Knox Walker MacEwen. Jim leaves behind a legacy of love through his four children and adoring grandchildren."

"Commander Roberts honorably served 27 years in the U.S. Navy, retiring from NAS Jacksonville as a proud member of the Navy Nurse Corps. He continued his career as a Certified Registered Nurse Anesthetist."

"Jim's life was one of unwavering devotion to his family and love for adventure. He was a gifted storyteller, sharing laughter and memories as a member of The Players Championship Storytellers, and he brought joy to many through his music with the First Coast Highlanders. As a seasoned traveler and explorer, Jim once circumnavigated the globe by sea, and during his lifetime visited places around the world. Travels during his last year took Jim to Norway, New Zealand, Australia, Hawaii, Nice, and the French Riviera, a testament to his enduring spirit of adventure and curiosity."

"Jim will be remembered as a loving father, a proud grandfather, a devoted husband, a loyal friend, and a man of impeccable integrity. His life was a gift to all who knew him."

# Why is the Unicorn Scotland's National Animal?

Unicorns have been linked to Scotland for centuries. In Celtic mythology, the unicorn was a symbol of purity and innocence, as well as masculinity and power. Tales of dominance and chivalry associated with the unicorn may be why it was chosen as Scotland's national animal. While the animal is mythological, the ideals it represents are what make it a perfect fit as the national animal for Scotland, because like this proud beast, the Scots fought to remain unconquered.

Did you know that Scotland has a National Unicorn Day? It's on the 9th of April every year!

The unicorn was first used on the Scottish royal coat of arms by William I in the 12th century. In the 15th century, when King James III was in power, gold coins even appeared with the unicorn on them. When Scotland and England unified under the reign of James VI of Scotland in 1603, the Scottish Royal Arms had two unicorns supporting a shield. When James VI became James I of England and Ireland, he replaced the unicorn on the left of the shield with the national animal of England, the lion, to show that the countries were indeed united.

## Member Spotlight: Blanca Rios

Blanca Rios is our tenor drummer, and when you see the joy with which she plays, you may want to take up the tenor drums, too! [Innocent plug inserted on purpose—please consider joining us!] Blanca says she has loved the bagpipes since the age of 8 and feels very lucky to belong to First Coast Highlanders. She says that the best parts about being a member of the band are that she gets to socialize, share with people, and relax and enjoy life. This helps with stress management, and the best part, she says, “is that we are having fun!”

Asked if she had advice for anyone considering playing with a Highland band, Blanca provided a clear roadmap: “Just come, watch, hang around, try it, sign up for free lessons, and if you like it, practice, show up for lessons, and as time goes by those lessons turn into rehearsals . . . be present, and the rest will happen eventually.”

Blanca was born and raised in a small town in Puerto Rico, Quebradillas, a town known for its beautiful beaches that are perfect for surfing. She says that she is from the countryside, Lake Guajataca. Based on Blanca’s descriptions, the band has talked about going to Puerto Rico, perhaps in 2027, to see Blanca’s home territory and perform around the island.

Blanca obtained an Associate degree and worked as a business and office administrator, then went back to school after she became a mother and earned her Bachelor’s degree in nursing. She has been a nurse for 11 years and currently works full-time as a palliative care nurse and part-time administering home infusions.

Some of us have noted and/or shared Blanca’s appreciation for fine cars and Harley-Davidson motorcycles! Blanca says she occasionally buys a Harley, rides it for a while, then sells it and lets her enthusiasm sit for a bit. “In Puerto Rico,” she tells us, “I used to ride with Storm Riders MC,” prompting this writer to look up that well-known club.

Blanca began learning to play the tenor drum after many years of being associated with the band as the parent of a piper, Blanca’s child Rios. We’re glad Blanca joined the band!
